

KOLA LEELAKUMAR

SOFTWARE ENGINEER | PYTHON & FULL STACK DEVELOPMENT

Visakhapatnam, AP, India | +91 9441322333 | kolaleelakumar425@gmail.com

PROFILE SUMMARY

Software engineer with hands-on production experience in debugging, CI/CD, and DevSecOps practices, plus personal projects building full-stack web applications with Python, Django, and JavaScript. Comfortable across the SDLC, from tracing production issues to designing database-backed applications from scratch, and quick to pick up new tools and stacks.

SKILLS

Programming Languages: Python, C, SQL, HTML, CSS, JavaScript

Frameworks & Web: Django, Responsive UI design, REST APIs

Testing: pytest, unittest

DevOps & Tools: Git, GitHub, SDLC, Agile

Networking: TCP/IP, DNS, DHCP, ARP, WLAN standards

Soft Skills: Quick learning, problem-solving, analytical thinking, communication, adaptability

EXPERIENCE

Associate Software Engineer, TCS

Nov 2024 – Dec 2025

- Traced and resolved production issues in insurance policy processing systems, working with senior engineers to deploy tested fixes through formal change management — without introducing new incidents.
- Optimized JCL batch jobs and legacy Natural programs, reducing recurring runtime errors across multiple processing stages.
- Wrote Python test scripts to validate batch job outputs against expected results, catching regressions before changes reached production.
- Applied DevSecOps practices to bring security checks earlier into the build and deployment pipeline.
- Contributed to CI/CD pipeline maintenance, keeping build-to-deploy cycles smooth across environments.

PROJECTS

Online Auction Platform

Python, Django, SQLite

- Built a full-stack Django auction site with user authentication, listing creation, and category browsing.
- Implemented a bidding system with server-side validation, tracking bid count and current highest bidder per listing.
- Designed relational models (listings, bids, categories, watchlist) connected via foreign keys and Django's ORM.

PG Lifestyle – Accommodation Finder

HTML, CSS, JavaScript

- Built a responsive website for browsing PG and rental accommodations, with property cards showing location, rent, and amenities.
- Implemented area and price-range filters; ensured the layout holds up cleanly on smaller screens.
- Focused on an intuitive, self-explanatory UI that needs no onboarding.

CERTIFICATIONS

- Python National Skill Up Program – GeeksforGeeks: hands-on training in Python fundamentals, automation scripting, and problem-solving.
- Web Development Training – Internshala: built responsive web applications with hands-on frontend and backend practice.

EDUCATION

Bachelor of Technology – Electronics and Communication Engineering

2020 – 2024

Avanathi Institute of Engineering & Technology, JNTU

Higher Secondary Education (MPC)

2018 – 2020

Sree Kasyap Junior College

AREAS OF INTEREST

Python Development · Web Development · Full Stack Development · Backend Engineering · REST API Development · Frontend Development · Software Engineering · Generative AI Tools for Development
